

SYSTEM RECORDS DOCUMENTS CABINET

The System Records Cabinet is built from durable 22-gauge satin coat galvanized steel, offering long-lasting protection for critical system documents. It features a secure cylinder lock (keyed alike) and crisp 1.5" white die-cut vinyl lettering for clear identification. A full-length piano hinge ensures smooth, reliable door operation, while dual strap clips and a Velcro elastic document strap keep paperwork neatly organized and firmly in place. Designed for durability, security, and convenience, this cabinet provides dependable storage for essential system records.
